RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS

Sir:

In response to the accompanying Notification of Missing Requirements Under 35 U.S.C. 371 mailed July 25, 2005, we enclose herewith the executed declaration in compliance with 37 CFR 1.497.

The required 37 CFR 1.492(e) surcharge was paid at the time of filing the application.

The Notification of Missing Requirements also indicates that the preliminary amendment filed on February 28, 2005 has somehow not been entered "because the amendment does not reflect the new claims that were submitted with the article 34." The Notification also requests \$180 for the alleged presence of multiple dependent claims.

It is however pointed out that Section 1893.01 (a)(3) of the MPEP states that if the annexes are in English, they will normally be entered into the U.S. national stage application by the Office absent a clear instruction by the applicant to the contrary.

In the instant case the international application was originally filed with claims 1-18, which were replaced with amended claims 1-17 during chapter II of the international stage. Upon entry into the national stage, applicant filed a preliminary amendment, which unambiguously and clearly states: "This listing of claims will replace all prior versions, and listing of claims in this application." The preliminary amendment then proceeded to cancel all previous claims 1-18 and add new claims 19-35, in accordance with the MPEP. Thus it is clear that applicant intends to have new claims 19-35 examined.

Since claims 19-35 are not multiply dependent, no additional fee is due. Section 1893.01 (c) of the MPEP clearly states that: "A preliminary amendment accompanying the initial national stage submission under 35 U.S.C. 371 that cancels claims and/or eliminates multiple dependent claims will be effective to reduce the number of claims to be considered in calculating extra claim fees required under 37 CFR 1.492(b)-(c) and/or eliminate the multiple dependent claim fee require under 37 CFR 1.492(d)".

Respectfully submitted,
